PROFILE

A Second-year Communications student specializing in HCI (Human-Computer Interaction) at Reichman University. UX/UI Club Manager. Intelligence veteran (Unit 8200). **Highly tech-savvy, proficient in Generative AI tools, and passionate about the combination of technology, design and people.**

EXPERIENCE

Manager of UX/UI Student Club | Reichman University (2024 – Present)

- **Professional Leadership:** Facilitating UX/UI workshops focusing on User Research methodologies and HCI principles.
- **Content & Design:** Crafting the community's visual identity and marketing strategy; designing social media assets and promotional materials using **Figma**.
- **End-to-End Production:** Planning and executing weekly meetups, workshops, and guest lectures with industry experts, managing all logistics and budgets.
- **Community Building:** Leading a growing community of 50+ tech-oriented students, fostering engagement through professional workshops and networking.
- **Promotion:** Managing multi-channel distribution to increase club visibility and student participation.

Emergency Operations & Logistics Manager (Reserves) | IDF | 2023 – Present

- Managing large-scale operations and supply chains under high-pressure conditions during active reserve duty.
- Demonstrating rapid decision-making, adaptability, and leadership in fast-paced, uncertain environments.

Digital Procurement & Tech Operations | Unit 8200, Intelligence Corps | 2021 – 2022

- **R&D Partnership:** Collaborated directly with research and development teams to identify and fulfill complex technological requirements (software and hardware).
- **Stakeholder Management:** Led cross-organizational projects and tenders, managing multi-million NIS budgets and coordinating between senior command and external vendors.
- **Optimization:** Developed resource management models to align technological solutions with organizational strategy.

Assistant to Operations Commander | Intelligence Corps | 2018 – 2021

- **Excellence Award:** Recognized as "Outstanding NCO" for exceptional management of HQ operations and complex projects.
- **Cross-Functional Coordination:** Managed interfaces between technological units and external vendors to support seamless mission execution.
