PROFILE

Communications student specializing in HCI at Reichman University, with experience leading digital products from requirements to a working version. Combines design thinking, business understanding and advanced use of AI tools, together with management experience from Unit 8200.

EDUCATION

B.A. in Communications, HCI specialization (3rd year) | Reichman University | 2024 - Present

Head of the UX/UI Club | Reichman University | 2025 - Present

- Lead the club's strategy and team management: building work plans, recruiting and training department managers, and preserving the community's culture

PROFESSIONAL EXPERIENCE

Product Management & AI GTM Engineering Intern | Zimark | Jul 2026 - Sep 2026

- Identified a fragmented sales process (20+ messages per deal across email, WhatsApp and Drive) and built ZDR, an internal platform for the sales and marketing teams that centralizes files, tasks and client communication in one shared link. From writing the PRD and designing 24 screens in Figma to a working app with users, permissions and a database, built with AI.
- Conducted competitive research and led feedback and improvement cycles with internal stakeholders.

CANDLE & CO | Founder & Designer

- Founded an independent candle brand and designed its full brand identity, including the logo. Built a Wix catalog of 50-60 products that replaced searching through Instagram posts, making ordering faster and clearer for customers.

UX/UI Club Community App

- Led the end-to-end design of the sign-up and onboarding flow under emergency conditions, creating a simple experience that kept the community active.

MILITARY SERVICE

Operations & Logistics Manager | Reserves | 2023 - Present

Digital Procurement & Technology Operations Manager | Unit 8200 | 2021 - 2022

- Led complex technology procurement projects, matching the right technology to the organization's needs.

Base Commander Assistant & Deputy | Unit 8200 | 2018 - 2021

- Coordinated technology projects across departments to improve operations. Received an award of excellence for managing strategic projects.

SKILLS

Product Design & Building: Figma, UX/UI, prototyping, AI tools (Lovable, Claude)

Product Management: Writing PRDs, defining requirements, QA, managing teams and stakeholders

Languages: Hebrew (native), English (fluent)
